PERSONAL PROFILE

I am a software engineer with a year of expertise in HTML, CSS, JavaScript, and frameworks like React and Next.js. I am proficient in backend technologies such as Node.js, Python, and Django, and have experience working with databases like MySQL and MongoDB. Additionally, I am skilled in Firebase, Tailwind CSS, and Sass, which enables me to create visually appealing and highly functional websites.

I have a strong passion for data science, machine learning, and artificial intelligence. I am continuously expanding my knowledge to integrate these cutting-edge technologies into my web development projects. Committed to delivering excellence, I strive to drive innovation in every endeavor, ensuring user-centric and efficient solutions for clients.

CORE COMPETENCIES

- Software Development Lifecycle
- Responsive Web/Graphic Design
- User Experience Improvement
- Database Management System
- Front-end Computing
- Test-Driven Development

SKILLS HIGHLIGHT

- Web Development: Proficient in developing standards-compliant front-end code for service websites, web applications, and mobile experiences. Expertise in managing corporate branding services, including logo design, letterhead, business cards, photo editing, and image cropping.
- Front-End Technologies: In-depth knowledge of multiple front-end languages and libraries such as HTML5, CSS3, SASS, JavaScript, TypeScript, React.js, Node.js, TailwindCSS, and Next.js. Familiar with tools like Firebase.
- Back-End and Databases: Skilled in using software databases such as MySQL, MongoDB, and Express. Experienced in server-side development with Node.js and Express.js, as well as back-end frameworks like Django.
- Project Leadership: Proven record of success in diagnosing and resolving technical/customer inquiries and meeting the highest standards for web design, user experience, best practices, and speed. Demonstrated ability to lead projects and teams effectively.
- Coding Standards: Adept at writing well-designed, testable, and efficient code using current best practices in web development. Committed to maintaining high productivity levels and handling heavy workloads efficiently.
- Version Control: Experienced with Git and GitHub for version control and collaborative development.

WORK EXPERIENCE

Software Engineer – Freelancer   **2023 - Present**

- Contributed as a key member of a collaborative team in the development of responsive websites using React for frontend and Node.js for backend.
- Worked closely with team members to brainstorm ideas, define project requirements, and allocate tasks effectively.

- Implemented efficient UI design and styling using Tailwind CSS, ensuring consistency and flexibility across projects.
- Successfully delivered projects on time and within scope, meeting client expectations and achieving high levels of satisfaction.
- Adapted quickly to evolving project requirements and effectively prioritized tasks to meet tight deadlines.

EDUCATION

- **B.Sc. in Electronic and Computer Engineering** – Lagos State University, Epe, Lagos **(Ongoing)**
